

MAGDALENE MASTERY
INITIATION LEVEL I

THE CROWN ROSE SEAL

The sacred path of
mastery and
initiation through
love

Beloveds,

Welcome to the **7th Venus Rose** Light initiation.

We are entering the mysteries of our Crown centre, a powerful centre of the 'infinite' at the top of the head. The crown is the final of the seven seals/chakras and our connection with the supreme Self. The awakening of the Crown Chakra means that we are consciously connecting to a universal flow of energy and spiritual enlightenment.

It is represented by a pure white, white Rose, lotus or light, and the seed mantra is MA. It influences brain functions such as memory, intelligence, and sharp focus.

Ancient Egyptians teach it initiates that the crown seal is our infinite connection with our soul, oversoul and pure source. It is the chakra of star magic, parallel universes and realities, your Akashic records, and the worlds of Spirit, accessed and downloaded here.

The crown represents divine authority, power, and inner strength. It symbolises an individual's spiritual connection to the heavenly realm and signifies their awakening and realisation of their true potential.

Wearing a crown in a spiritual context denotes the sovereignty of one's soul and the recognition of the higher self. It also symbolises the beauty of our journey and the path of the Rose and thorns.

All my love & Devotion,

Chloe.

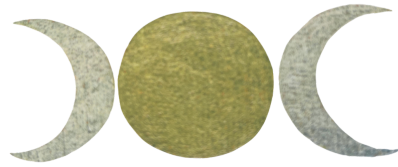

"I receive and wear my crown of Pure
love, Roses and Lotus.

I am open to the pure connection I
have with my soulful essence.

Proclaiming and honouring my body,
light and divinity as holy."

THE CROWN SEAL

THE SEVENTH VENUS ROSE GATEWAY

Wearing a crown in a spiritual context denotes the sovereignty of one's soul and the recognition of the higher self. It is a full embodied expression of our blissful and ecstatic pure nature. This is the distilled essence of the sensual expression.

Divine authority: A crown is often associated with kings and queens, symbolising their authority over their kingdom and Queendom. In spirituality, it represents the power we have over our spiritual growth and development.

Enlightenment: The spiritual meaning of a crown also entails enlightenment, as it is a symbol of wisdom and understanding attained through spiritual practices and self-discovery.

Connection to higher powers: A crown symbolises one's connection to higher powers or divinity, representing the importance of spirituality in guiding our lives. Inner strength: The crown stands for inner strength and resilience to overcome obstacles in life and reach our highest potential.

THE ANKH

The Ankh is of primary importance upon the Year and a Day Path. The Egyptian cross of life represents the sexual union of the masculine and feminine energetic and physical bodies.

The Ankh helps us understand the deeper meaning behind the sacred geometry of the cross, which is significant in many spiritual traditions, including Christianity.

The Gospel of Philip identifies the cross among several spiritual gifts given by the Father to one who is about to be anointed in the bridal chamber.

The Ankh is also referred to as the magical key of the Nile. This is because yearly, God and Goddess symbolically enter into a sacred marriage rite at the Nile's source point before the flood. The Christian version of the cross of life significantly lacked the feminine oval and kept only the masculine parts of the cross.

In hieroglyphics, the Ankh stands for 'life'.

The Ankh will be a secret key for each priestess's initiatory path of sacred marriage and renewed life—unveiling and restoring ancient petals of the Rose wisdom within.

The Ankh is one of the earliest, most prominent and important parts of ancient Egyptian hieroglyphs. Also called the "Key of Life," the Ankh is in the shape of a cross with a loop on top. Thus, it resembles a womb and a key. The Ankh means "life" and symbolises and has various meanings/powers depending on the intention of its use.

In essence, it symbolises the male and female energies and reproductive organs. The loop represents the womb/Yoni, and the cross represents the Lingham phallus and their union forms life. In some texts, the Ankh is also considered the symbol of water and air, which are basic life-giving elements.

Due to this, many water vessels were moulded into the shape of the Ankh. This also signifies its connection to the holy grail, the chalice and the womb.

“My heavenly and earthly crown is a
symbol of the pure attainment of my
powerful life force as a woman ”

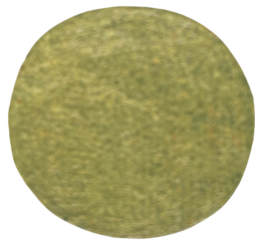

Soul Rememberance Inquiry

Over the course of this lunation path, incorporate the following practices.

- **DAILY** Connect to your Crow and feel/sense/perceive the space of the soul and the physical structure of this energy centre. Begin to commune, build a personal relationship, and be guided by your body. Unlock your telepathy, bi-location, downloading and transmission gifts.
- Over the next four weeks, create a **Crowning Rite**, a ritual movement, sound or prayer practice. This is to be a short magical ritual, a few minutes, that you will share in our group and during our next module, Healing with Roses, in July.
- Build an altar or a way of honouring the Crown chakra/seal and what it truly means to you.
- Practice breath work and cleanse the energies, patterns and illusions stored and configured in the Crown and Head centre. Be conscious of creating a ceremony to release old negative thoughts imprinted within this centre and free yourself from ancestral patterns passed down through the generations that connect to spirituality, our bliss, maturing and growth as a Woman so that we can fully step into our power as Rose Queen and Priestess.
- If you need to share a council meet-up with our inner sanctum group, please ensure you do so. If you have already carried this out, please document your experience before, during and after and within your dreamtime around this mastery session.
- Set up your council group with your Magdalene priestesses-
- Ensure you contact each participant
- Create at least two circle
- One to one session unless they need more support
- Centre around the topic and path of the year programme, i.e. orange rose etc., and the practices we have been carrying out, such as the yoni puja.

Share and give feedback on your experience in our online group/telegram.
